“Weather The Storm”

Upon completion Managers will:

1. Gain a better understanding of the ‘Hurricane Preparation System’
2. Be able to name and define the specific steps of hurricane preparation
3. Know how to prepare the facility
4. Know what to do in preparation prior, during and after the event
5. Understand how to work with your insurance company
6. Beware aware of why your attorney is part of the plan

Overview

“Weather The Storm” was designed for all Community Association Managers and Board Members wanting to enhance their knowledge of hurricane preparedness. The course is divided into three sections to allow participants to better understand each of the community members responsibilities. Veterans of our Florida Hurricane season will appreciate the new tips and be able to share their own special preparations. First timers will gain a wealth of knowledge in the “Hurricane System Process”. Board members will better understand what is required of them during a hurricane event.

General Overview

- How to utilize technology in hurricane preparation
- Board member responsibilities
- Check list of preparation items
- Know the “Hurricane System Process”
